

RGREEN INVEST LAUNCHES RGREEN ENERGY TRANSITION, AN EVERGREEN ELTIF FUND, DEDICATED TO THE EUROPEAN ENERGY TRANSITION, ACCESSIBLE TO RETAIL INVESTORS

Paris, 15 December 2025 – RGREEN INVEST, an independent management company specializing in financing the energy transition, announces the launch of RGREEN ENERGY TRANSITION, its first EVERGREEN fund classified under SFDR Article 9, currently undergoing Greenfin certification, and approved under ELTIF2, designed for retail investors.

RGREEN ENERGY TRANSITION now brings RGREEN INVEST's expertise, previously reserved for institutional investors, to individual investors, making green infrastructure investments more accessible and contributing to European energy sovereignty. From January, the fund will be listed in the unit-linked funds of life and retirement contracts from various French insurance companies. This approach offers private investors the opportunity to participate directly in financing low-carbon infrastructure and the decarbonisation of the economy, while seeking sustainable performance.

With 15 years of experience in financing sustainable infrastructure, and having invested over €3.4 billion in debt and equity across over 3,000 projects mostly in Europe, RGREEN INVEST is responding to the growing demand from private investors with the launch of RGREEN ENERGY TRANSITION. The fund will invest directly and indirectly (via INFRAGREEN and INFRABRIDGE funds) in low-carbon infrastructure, including renewable energy, electrification of uses, and energy efficiency. It will target ready-to-build assets and seize a wide range of opportunities across Europe to meet the rising need for electrification.

The launch of RGREEN ENERGY TRANSITION represents a major strategic milestone in the evolution of RGREEN INVEST. This momentum is reinforced by the appointment of Zoé Bach as Wholesale Director, responsible for private investor relations in French-speaking Europe. Her arrival complements the work of Pierre Leroux, Business Development Director for the same region. Within the scope of their responsibilities is to expand coverage among French insurers and structure a dedicated offering for wealth managers, private banks, and family offices.

“With RGREEN ENERGY TRANSITION, we now offer a financing solution dedicated to the European energy transition, designed to integrate seamlessly into private investors’ portfolios. Through this fund, we will help to finance essential projects to strengthen European sovereignty, energy independence, and industrial competitiveness, all closely tied to energy costs. Investing in RGREEN ENERGY TRANSITION means contributing to building a decarbonised, competitive, and self-sufficient future, leveraging over fifteen years of expertise in financing the energy transition in Europe.” says **Nicolas Rochon, Founder & CEO of RGREEN INVEST.**

“Given the growing interest from our partners, including wealth managers, family offices, and insurers for infrastructure solutions, particularly impact funds, we wanted to open this access to private clients. To achieve this, we combined RGREEN INVEST’s equity and debt expertise to create our first evergreen fund.” adds **Zoé Bach, Wholesale Director at RGREEN INVEST.**

About RGREEN INVEST

RGREEN INVEST is a Paris based investment management company, with over fifteen years’ experience financing the energy transition.
